

# BRASS PADLOCKS

Available in two sizes these padlocks have a solid brass body and shackle, with a coloured vinyl casing for protection, and are spark and corrosion resistant. Genuine pin tumbler cylinder offers more unique key cuts and more effective tamper resistance. Locks come keyed differently, with two keys supplied. Labels are sold separately.

# BRADY STEEL PADLOCKS

These heavy-duty laminated steel padlocks offer the optimum in security and durability. Suited for use in general security applications such as locking toolboxes, equipment cribs and more, many customers also use steel padlocks for lockout applications in environments where lockout devices may be exposed to rough handling or potential tampering by unauthorised individuals.

The individually zinc-coated steel plates deliver superior rust protection. In addition, the use of a 5-pin cylinder, paracentric keyway with drill protection and countersunk rivets work together to enhance the lock's ability to withstand physical abuse and tampering. Available in six high-visibility safety colours and supplied with two keys per padlock. Danger labels are also available (sold separately).
