

LABELLED LOCKOUT HASPS

Brady's new Labelled Lockout Hasp is a combination Lockout Tag and Safety Lockout Hasp. This device allows a single employee to lock out a piece of equipment and begin servicing it. Up to five additional employees can affix their locks and tags to the Labelled Lockout Hasp to assist in the servicing operation.

Available in tough 5052 anodised aluminium alloy. Label surface accepts pens, pencils and permanent markers. Printing from pens and pencils can be erased from Lockout Hasps.

Colours Available: ● Red ● Blue ● Green ● Gold ● Silver

ELECTRICAL LEAD HOOK & STAND

This Electrical Lead Hook and Stand is the perfect solution for keeping leads off the ground in construction sites and in warehouses. Designed for use on flat or rough terrain, the tripod stand is made from galvanised steel and spans out to 100x100mm and has a hook for additional weights. The Lead Hook is made from durable, flexible plastic material and is non-conductive.
